CNC Precision Turned Components & Capabilities

RAF Electronic Hardware & Futuristics Components

RAF Electronic Hardware, a location of MW Industries, Inc., has long been your quality source for electronic hardware including captive panel screws, spacers, standoffs, jack screws, shoulder screws, thumb screws, circuit board supports, washers, handles, and ferrules. With the recent acquisition of Futuristics Components, RAF's product line and capabilities have expanded.

Futuristics Components supplies CNC machined parts as well as primary and secondary capabilities including: crimping, plating, slotting, knurling, assembly, threading, heat treating, and zone annealing. CNC precision machining for short to medium runs with quick turnaround are our specialty.

Empowering innovation. Engineering value.

RAF Electronic Hardware & Futuristics Components Capabilities

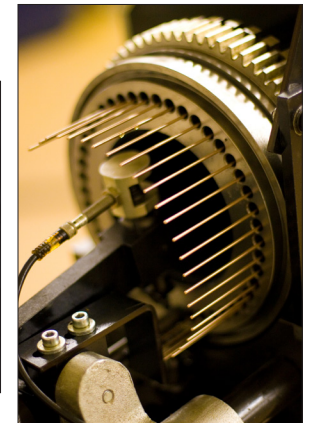

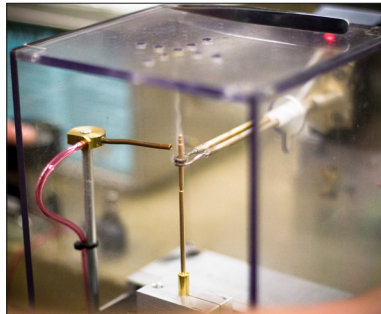

COMPONENTS:

Fasteners
Standoffs
Shafts
Washers
Timing Devices
Switches
Terminals
Inserts
Couplings
Flanges
Toggles

Bushings
Contacts
Bending
Threads
Connectors
Prototypes
Guide Pins
Attenuator Parts
Fittings

SERVICES PROVIDED:

Precision CNC Machining
Zone Annealing & Right-Angle Bend Expertise
Slotting
Knurling
Threading
Heat Treating
Crimping
Plating
Assembly
Complete Secondary, Toolroom, & Engineering Support

INDUSTRIES SERVED:

Electronics
Commercial
Hardware
Defense
Aerospace
Light Assemblies
Telecommunications
Instruments
Fiber Optics

MARKETS SERVED:

Microwave Components
Defense
Aerospace
Cable Harness Manufacturers
Satellite Communications
Contract Manufactures
Medical
Fastener

CERTIFICATIONS:

ISO 9001:2008 Certified
MIL-I-45208A
MIL-STD-45622
MIL-C-39029
Certified Dock to Stock
